Volume 39: Subject index

Abbreviations:—"(L)" refers to letters to the Editor.

Aborted fetuses. *See* Fetuses, aborted
Abscess of breast, non-puerperal, pathogenic role of *Mobiluncus* spp in (L), **342**
ACTH and somatostatin like immunoreactivity in small cell carcinoma of lung, **418**
Adenocarcinoma, prostatic, evolving into carcinoid, 2 cases of, selective effect of hormonal treatment?, **750**
——, scar, of lung, light and electron microscopic study, **423**
Adenoid cystic carcinoma, laminin and fibronectin in, **138**
Adenoma, carcinoma, and hyperplastic polyps, colonic, glycoprotein abnormalities shown by lectin peroxidase histochemistry, **1331**
Adenoma-carcinoma sequence and DNA content in colorectum, **387**
Adenomatosis of small intestine, case of, **981**
Adenomatous polyps of colon, ploidy studies in (L), **695, 696, 1276**
Adrenal and parathyroid autoantibodies, coexisting, rarity of (L), **813**
Adrenaline stimulation *in vitro* of plasminogen activator release from vein walls, **1241**
Adrenocorticotrophic hormone. *See* ACTH
Aerobic bacilli, Gram-negative, identification of, kit systems for (Welsh Standing Specialist Advisory Working Group in Microbiology report), **666**
Age and smoking, effects on imtima of muscular pulmonary arteries, **1204**
Aging and senile dementia of Alzheimer type, effects on dihydropteridine reductase activity in dried blood spots, **199**
—— process, histological changes in sublabial salivary glands due to, morphometric study of, **406**
AIDS, accessory cells as primary target of HIV infection in (L), **1161**
—— and anti-HTLV-III positive laboratory reagents (L), **346**
——, Kaposi's sarcoma in, **469**
——, —— —— in patients with and without, histogenesis of, **742**
Airways disease, obstructive, chronic, β lactamase producing 'non-pathogens' in, detection and importance of (L), **343**
Albumin, urinary, determination at low concentrations, new radioimmunoassay kit for, assessment and comparison with radial immunodiffusion, **1151**
Alcohol, hypertension caused by, interactive roles of monovalent and divalent cations in pathogenesis, **1264**
Alcoholic liver disease, hepatic vein lesions in, retrospective biopsy and necropsy study, **63**
—— —— ——, IgA deposition in, **1181**
Alkaline phosphatase isoenzyme activity in serum, determination of, quantitative method with guanidine hydrochloride, **1025, 1031**
Alpha-1-antitrypsin. *See* α_1-Antitrypsin
Alzheimer type senile dementia and aging, effects on dihydropteridine reductase activity in dried blood spots, **199**
Alzheimer's disease, monoclonal antibody (SMP) binding to congophilic elements in human brain in, **1199**
Amyloid A, serum concentration, variations in cancer, correlation with disease activity, stage, primary site, and prognosis, **794**
—— ——, —— concentrations during course of acute ischaemic heart disease, **635**
——, atrial, immunoreactive atrial natriuretic peptide in, identification of (L), **581**
Anaemia, dyserythropoietic, type I, congenital, erythroblast function in 2 patients with, evidence of impaired DNA, RNA, and protein synthesis and other abnormalities, **881**
——, haemolytic, immune, and nomifensine treatment, 6 cases in NW England (1984–85), **1147**
——, iron deficiency, erythroblastopenia in, human parvovirus associated with (L), **1277**
Anaemias, haemolytic, clinical use of ^{111}In labelling of red cells in (L), **464**
Anaerobic cocci, Gram positive, survival on swabs and isolation from mouth and vagina, **93**
—— coccoid rods, antibody response to, in Crohn's disease, **1130**
Angioimmunoblastic lymphadenopathy, monoclonal T cell proliferation in, evidence for, **1229**
Angiotensin converting enzyme, serum concentrations in pneumonias, **1250**
Antibiotics, coryneforms group JK resistant to, biochemical and cultural characteristics of, **654**
——, prescribing preferences of general practitioners in Leeds area, influence of laboratory sensitivity reporting policy (L), **233**
Antibodies, monoclonal. *See* Monoclonal antibodies
—— to *Pseudomonas aeruginosa* cell surface antigens in sera in cystic fibrosis, development of ELISA for detection of, **1124**
Antibody, IgG and IgA, responses in serum associated with *Campylobacter pyloridis* in patients undergoing upper gastrointestinal endoscopy, **215**
——, monoclonal. *See* Monoclonal antibody
—— response to anaerobic coccoid rods in Crohn's disease, **1130**
—— to hepatitis B surface antigen, donor screening for (L), **583**
Anticomplement immunofluorescence antibody titration, importance for diagnosis of varicella-zoster virus infection in Bell's palsy, **1254**
Antigen, Ca, and urothelial antibacterial defences (L), **691**
——, carcinoembryonic, expression in normal, chronically inflamed, and malignant pancreatic tissue, immunohistochemical demonstration of, **610**
——, ——, in serum, diagnostic accuracy in pancreatic cancer, comparison with tissue polypeptide antigen, **75**
——, chlamydia, detection of, ELISA for, false positive results with (L), **1276**
——, *Chlamydia trachomatis*, detection by enzyme immunoassay, immunofluorescence, and cell culture (L), **232**
——, epithelial membrane, and cytokeratin, expression by meningiomas, immunohistological study, **435**
——, ——, fibronectin, and laminin, antisera to, study of childhood renal tumours using, **51**
—— Ki-1 positive cells, Reed Sternberg associated, in normal lymphoid tissue, high proliferative activity of, **993**
——, leucocyte, common, cytokeratin, and other markers in immunohistochemical diagnosis of tumours on routine surgical sections, **514**
——, streptococcal, group B, detection in necropsy specimens using monoclonal antibody and immunoperoxidase staining, **223**
——, tissue polypeptide, diagnostic accuracy in pancreatic cancer, comparison with serum CEA, **75**
Antigens, blood group, expression in urinary tract tumours, fluorescence study using cryostat sections of fresh frozen tissues, **1165**
——, HLA, and idiopathic haemochromatosis in Italy, with A3 Bw35 HLA haplotype as marker for idiopathic haemochromatosis gene in NE regions, **125**
Antimicrobial susceptibility testing and identification in 24 hours for rapid diagnosis of Gram negative urinary infections, **208**
—— —— —— of *Haemophilus influenzae*, trial for UK national external quality assessment scheme for microbiology, **1006**
—— —— —— of *Pseudomonas maltophilia* (L), **463**
Antioxidative enzyme activities in erythrocytes, comparison between 2 types of haemoglobin H disease, **1296**
Antisera to fibronectin, laminin, and epithelial membrane antigen, study of childhood renal tumours using, **51**
α_1-Antitrypsin and liver, results of routine immunohistological screen, **58**
Anus, condyloma acuminata of, human papilloma virus in (L), **927**
Aortic dissections, histological pattern and changes in extracellular

matrix in, **1074**
API-10S strips for biotyping *Haemophilus influenzae*, comparison with tube tests (L), **692**
Aplastic crisis in patient with HEMPAS, parvovirus infection associated with, **1019**
Arabinitol estimations in serum for diagnosis of invasive candidosis, **842**
Arterial blood gas analysis, effect of sodium citrate anticoagulant *in vitro* on results of (L), **1046**
Arteritis, isolated, of epididymis (L), **114**
Arthritis, rheumatoid, complicated by malignant histiocytosis, 4 cases of, **16**
Asbestos fibre dust counts in lung tissue obtained by analytical electron and light microscopy, comparison of results, **313**
Aspergillus infection, cerebral and orbital, due to invasive aspergillosis of ethmoid sinus, case of, **774**
Aspiration biopsy cytology, fine needle, of lung, experience with cell block technique in (L), **114**
——————, ——————, of thyroid, confusion of subsequent histology due to (L), **697**, **698**
Atrial amyloid, immunoreactive atrial natriuretic peptide in, identification of (L), **581**
Atrioventricular node, mesothelioma of, primary, causing sudden death, case of (L), **926**
Auer rods in acute myeloblastic leukaemia, crystal structure of, **569**
Authorship, International Committee of Medical Journal Editors guidelines, **110**
Autoimmune sialadenitis, malignant epithelial tumours associated with, 2 British cases of, **497**
Autoimmunity in chronic liver disease caused by hepatitis delta virus, **897**
——————lymphocytic leukaemia, **713**

Bacilli, aerobic, Gram-negative, identification of, kit systems for (Welsh Standing Specialist Advisory Working Group in Microbiology report), **666**
——, Gram negative, low cost identification in clinical laboratories, construction of database for, **798**
Bactec radiometric system for blood cultures, comparison with Oxoid gas capture system, **661**
Bacteraemia, detection of, manual or radiometric method for (L), **582**
——, early detection of, high speed centrifugation in, **1157**
——, suspected, C-reactive protein concentration in (L), **1363**
Bacteria, nitrate reduction by, commercial strip test for (L), **118**
——on blood films (L), **928**
Bacterial meningitis, normocellular, 4 cases of (L), **694**
Bacteroides sp, *Escherichia coli*, and polymorphonuclear leucocytes, interactions between, role in pathogenesis of mixed infection, **376**
Beckman airfuge centrifugation in rapid method for concentration of hepatitis B virus particles, **808**
Bell's palsy, varicella-zoster virus infection in, diagnosis of, importance of anticomplement immunofluorescence antibody titration for, **1254**
Beryllium disease, chronic, diagnosis by laser ion mass analysis, **900**
Beta-propiolactone, effect on haemoglobin electrophoresis (L), **814**
Bezoar composed of coconut matting identified by combined analytical approach, **172**
Biliary cirrhosis, primary, serum immunoreactive trypsin and pancreactic lipase in, **638**
Biochemistry, clinical. *See* Clinical biochemistry
Biotinylated probes, *in situ* hybridisation with, human and viral gene detection in paraffin embedded tissue by, and viral localisation in herpes encephalitis, **1066**
Blood, arterial, gas analysis, effect of sodium citrate anticoagulant *in vitro* on results of (L), **1046**
——culture, conventional, lysis filtration as adjunct to, evaluation of, **89**
————systems, comparison of Bactec radiometric and Oxoid gas capture systems, **661**
——cultures, growth of micro-organisms in, detection of, novel method for, **1259**
——donor screening for anti-HBs (L), **583**
————sera, large scale screening with latex agglutination method for IgA deficiency, **458**
——films, bacteria on (L), **928**
——group antigen expression in urinary tract tumours, fluorescence study using cryostat sections of fresh frozen tissues, **1165**
——platelet. *See* Platelet
——spots, dried, dihydropteridine reductase activity in, effects of aging and senile dementia of Alzheimer type, **199**
Bone marrow involvement with T cell lymphoma, 3 cases initially presenting as abnormal myelopoiesis, **134**
————necrosis and interferon treatment (L), **1045**
————trephines, benign and malignant (B cell) focal lymphoid aggregates demonstrated by immunogold-silver technique in, **453**

Books: new titles, **120, 352. 816**
Bordetella pertussis survival in transport media (L), **119**
BPL. *See* Beta-propiolactone
Brain, human, in Alzheimer's disease, monoclonal antibody (SMP) binding to congophilic elements in, **1199**
—— macrophages and microglial cells labelled by monoclonal antibody to macrophages (EBM/11), **615**

Breast abscess, non-puerperal, pathogenic role of *Mobiluncus* spp in (L), **342**
——, carcinoma of, cytoprognostic classification in, value of, **489**
——, ——— ———, ductal, *in situ*, endocrine variant of, ultrastructural and light microscopical studies of 2 cases, **1355**
——, ——— ———, growth fractions determined *in situ* with monoclonal antibody Ki-67, **977**
——, ——— ———, with spread to lymph nodes, characterisation of cancer cells with high malignant potential in, **603**
——, sarcoidosis of, case of, **446**
—— tissue, benign and malignant, *ras* oncogene p21 product in, immunohistochemical detection of, **428**
—— tumours, frozen, oestrogen receptor assays using, quality control of (L), **690**
Bronchitis, chronic, and emphysema, right ventricular weight at necropsy in, comparison with interstitial pulmonary fibrosis, **594**
Bronchoalveolar lavage fluid, cytological examination of, diagnosis of 15 cases of *Pneumocystis carinii* pneumonia by, **945**
Bronchus, carcinoma of, mimicking myocardial infarction, plasma enzyme changes in (L), **1158**
——, ——— ———, squamous cell, poorly differentiated, light and electron microscopic study, **284**

C4, serum concentrations in subjects with and without C4 null alleles, reference ranges for, **573**
Ca antigen and urothelial antibacterial defences (L), **691**
Calcium homeostasis in second trimester fetuses, **838**
—— reabsorption, renal tubular, in hypercalcaemia, clinical assessment of, influence of urinary sodium excretion, **641**
Campylobacter, gastric, local immune response to, in non-ulcer dyspepsia, **863**
Campylobacter-like organisms and reflux gastritis, **531**
Campylobacter pyloridis and associated serum IgG and IgA antibody responses in patients undergoing upper gastrointestinal endoscopy, clinical importance of, **215**
——— ———, detection in gastric mucosa by phase contrast microscopy, **112**
——— ———, gastritis, and peptic ulceration (*Review article*), **353**
——— ———, identification of, simplified techniques for (L), **1279**
Candidosis, invasive, diagnosis of, serum arabinitol estimations for, **842**
Captopril and enalapril, severe cutaneous reactions to, histological study and comparison with early mycosis fungoides, **902**
Carbamazepine, hypersensitivity to, presenting as pseudolymphoma, case of, **1224**
Carcinoembryonic antigen expression in normal, chronically inflamed, and malignant pancreatic tissue, immunohistochemical demonstration of, **610**
——— ——— in serum, diagnostic accuracy in pancreatic cancer, comparison with tissue polypeptide antigen, **75**
Carcinoid, prostatic adenocarcinoma evolving into, 2 cases of, selective effect of hormonal treatment?, **750**
—— tumour, atypical, chronic ulcerative colitis complicated by, case of, **913**
Carcinoma, adenoma, and hyperplastic polyps, colonic, glycoprotein abnormalities shown by lectin peroxidase histochemistry, **1331**
——, cystic, adenoid, laminin and fibronectin in, **138**
—— of breast, cytoprognostic classification in, value of, **489**
——— ——— ———, ductal, *in situ*, endocrine variant of, ultrastructural and light microscopical studies of 2 cases, **1355**
——— ——— ———, growth fractions determined *in situ* with monoclonal antibody Ki-67, **977**
——— ——— ——— with spread to lymph nodes, characterisation of cancer cells with high malignant potential in, **603**
—— of bronchus mimicking myocardial infarction, plasma enzyme changes in (L), **1158**
——— ——— ———, squamous cell, poorly differentiated, light and electron microscopic study, **284**
—— of lung, small cell, somatostatin and ACTH like immunoreactivity in, **418**
—— of thyroid, anaplastic, small cell, differentiation from lymphoma by immunocytochemistry (L), **231**
—— of upper urinary tract, transitional histological and cytopathological study, **297**
——, pancreatic, diagnosis of, comparison of accuracy of tissue polypeptide antigen and serum CEA in, **75**
——, parathyroid, nuclear diameter in, **1353**
——, rectal, lymphocytic infiltration and survival in, **585**
——, renal, central nervous system metastases of, and CNS haemangioblastomas, differential diagnosis of, immunoperoxidase labelled antibody staining in, **917**
——, serum amyloid A variations in, correlation with disease activity, stage, primary site, and prognosis, **794**
Carcinomas and sarcomas, antineuron specific enolase staining reactions in, and lack of neuroendocrine specificity, **1186**
Cardiac. *See* Heart
Cardiovascular and respiratory disease, pulmonary megakaryocytes "missing link" between?, **969**
Catalase-negative *Staphylococcus aureus* (L), **695**
Cathepsin D in normal and neoplastic human tissues, immunolocalisation of, **1323**
Catheters, Hickman, source of infection in (L), **1046**
Cations, monovalent and divalent, interactive roles in pathogenesis of hypertension caused by alcohol, **1264**
Cefotetan, effects on haemostasis in 2 patients with reduced serum vitamin K_1 concentrations, **1245**
Central nervous system haemangioblastomas and CNS metastases of renal carcinomas, differential diagnosis of, immunoperoxidase labelled antibody staining in, **917**
Centrifugation, high speed, in early detection of bacteraemia, **1157**
Centrorrhexis as term for "new" reaction pattern of lymph nodes (L), **1042**
Cephalosporins. *See* Cefotetan
Cerebral and orbital *Aspergillus* infection due to invasive aspergillosis of ethmoid sinus, case of, **774**
Cervical and oviductal epithelium, human, nature of "basal" and "reserve" cells in, **306**
—— brush biopsy specimens suitable for DNA and oncoprotein analysis using flow cytometry, **577**
—— cytology, terminology in, definitions and recommendations from British Society for Clinical Cytology Working Party (*Review article*), **933**
—— glandular atypia associated with squamous intraepithelial neoplasia, premalignant lesion?, **22**
—— intraepithelial neoplasia with associated human papillomavirus 6 and 16 infections, histological and immunocytochemical study, **1177**
Chest infections, postoperative, especially *Haemophilus influenzae* infections, study of, **78**
Chlamydia antigen detection, ELISA for, false positive results with (L), **1276**
—— detection by monoclonal antibody ELISA based technique and effects of sample storage (L), **927**
Chlamydia trachomatis antigen detection by enzyme immunoassay, immunofluorescence, and cell culture (L), **232**
——— ———, chronic respiratory disease in premature infants caused by, **84**; (L), **698**
——— ——— urethritis detected by immunoblotting, antigenic specificity of serological response in, **325**
Chlamydial endometritis, lymphoid reaction in case of (L), **464**
—— infection, class specific immunoglobulin response to individual *Chlamydia trachomatis* polypeptides, elementary bodies, and reticulate bodies in, **1313**
Cholecystitis, chronic and "minimal", gall bladders with, macrophages and mast cells in, **1082**
Chromium, technetium, and indium erythrocyte radiolabelling, *in vitro* comparison in undamaged and heat damaged cells, **717**
Cirrhosis, biliary, primary, serum immunoreactive trypsin and pancreatic lipase in, **638**
Clinical biochemistry services, costing as part of operational manage-

ment budgeting system, **817**
Clostridium difficile, detection and identification of, latex particle agglutination for, **212**
——— in cystic fibrosis, asymptomatic carriage of, **1013**
——— isolation from human jejunum and possible identification of jejunum as reservoir for disease, **861**
——— toxins, cytotoxicity assays for, technique for measuring 50% end points in, **672**
Coagglutination test in serotyping of *Streptococcus pneumoniae* strains, **328**
Coagulase production by *Staphylococcus aureus* strains of differing resistance characters, comparison of 2 traditional tests with latex agglutination system (Staphaurex), **371**
Coagulase-negative staphylococci in chronic ambulatory peritoneal dialysis, production of slime by, clinical importance of (L), **117**
Coagulopathy associated with meningococcal septicaemia, case of, **1304**
Cocci, anaerobic, Gram positive, survival on swabs and isolation from mouth and vagina, **93**
Coccoid rods, anaerobic, antibody response to, in Crohn's disease, **1130**
Coconut matting bezoar identified by combined analytical approach, **172**
Colitis, ulcerative, chronic, complicated by atypical carcinoid tumour, case of, **913**
——, ——, long standing, value of mucin histochemistry in follow up surveillance in, **393**
Colon, carcinoma, adenoma, and hyperplastic polyps of, glycoprotein abnormalities shown by lectin peroxidase histochemistry, **1331**
——, polyps of, adenomatous, ploidy studies in (L), **695, 696, 1276**
Colorectal goblet cell sialomucin heterogeneity, relation to malignant disease, **1088**
Colorectum, DNA content and adenoma-carcinoma sequence in, **387**
Complement. *See* C4
Computer. *See* Microcomputer
Conception, products of. *See* Fetuses
Condyloma acuminata of anus, human papilloma virus in (L), **927**
Coronavirus, enteric, in symptomless homosexuals (L), **1159**
Corrections, **236,** (L), **465, 816, 932, 1048**
Coryneforms group JK, antibiotic resistant, biochemical and cultural characteristics of, **654**
C-reactive protein concentration in suspected bacteraemia (L), **1363**
——— serial concentrations as indicator of urinary tract infection in spinal injury, **851**
Crohn's disease, antibody response to anaerobic coccoid rods in, **1130**
———, lamina propria mast cells in biopsies from children with, **279**
Cryostat section assay of oestrogen and progesterone receptors in meningiomas, clinicopathological study, **44**
Cryptosporidial infection, screening for (L), **1363**
Cryptosporidium sp (L), **465** *(Errata)*
Cushing's syndrome, ectopic, 18 tumours causing, immunocytochemical study of, **955**
Cutaneous non-Hodgkin's lymphomas other than mycosis fungoides, immunocytochemical characterisation of, **553**
—— reactions, severe, to captopril and enalapril, histological study and comparison with early mycosis fungoides, **902**
Cyclosporin A, renal allograft recipients immunosuppressed with, yellow and blue-green fluorescence in renal tubular cells, red blood cells, and lymphocytes in urinary sediments of (L), **116**
—— and renal graft histology, **145**
—— nephrotoxicity in renal allografts, morphological differentiation from rejection, **152**
Cystic carcinoma, adenoid, laminin and fibronectin in, **138**
—— fibrosis, *Clostridium difficile* in, asymptomatic carriage of, **1013**
———, *Pseudomonas aeruginosa* from, inhibition by selective media, **220**
———, serum antibodies to *Pseudomonas aeruginosa* cell surface antigens in, development of ELISA for detection of, **1124**
—— mesothelioma, peritoneal, electron microscopic and immunohistochemical study of 2 men with, **440**
Cysts, theca-lutein, ovarian, gestational trophoblastic disease complicated by, abnormal steroid excretion in, **627**
Cytokeratin and epithelial membrane antigen expression by meningiomas, immunohistological study, **435**
——, common leucocyte, and other markers in immunohistochemical diagnosis of tumours on routine surgical sections, **514**
Cytology, cervical, terminology in, definitions and recommendations from British Society for Clinical Cytology Working Party *(Review article)*, **933**
Cytomegalovirus DNA, restriction enzyme analysis of, for study of transmission of infection, **318**
—— inclusion disease and sudden infant death, **383**
Cytoplasmic fibrils, bundles of, in 50 cases of acute myeloid leukaemia, correlation with nuclear morphology, **99**

Data coding, manual, with SNOP or SNOMED systems, comparison of errors in 2 hospitals, **622**
Delta virus. *See* Hepatitis delta virus
Dementia, senile, of Alzheimer type and aging, effects on dihydropteridine reductase activity in dried blood spots, **199**
Deoxyuridine suppression test, new micro method for, **1155**
DF-2, septicaemia and meningitis caused by, case of, **1021**
Diabetes mellitus, erythrocyte deformability in, effects of hyperglycaemia and sorbitol accumulation, **722**
Dialysis, peritoneal, ambulatory, chronic, coagulase negative staphylococci in, production of slime by, clinical importance of (L), **117**
———, ———, ———, continuous, peritonitis in, laboratory diagnosis by lysis and centrifugation, **925**
Dihydropteridine reductase activity in dried blood spots, effects of aging and senile dementia of Alzheimer type, **199**
Dipeptidyl aminopeptidase II and IV in normal and malignant haemic cells, comparative cytochemical study, **891**
Dipstick analysis for paediatric urine screening, **1360**
DNA analysis in human disease *(Review article)*, **1281**
—— and oncoprotein analysis using flow cytometry, cervical brush biopsy specimens suitable for, **577**
—— content and adenoma-carcinoma sequence in colorectum, **387**
——, cytomegalovirus, restriction enzyme analysis of, for study of transmission of infection, **318**
—— flow cytometry in non-Hodgkin's lymphomas, prognostic importance of, **542**
—— ploidy patterns and cytokinetics of non-Hodgkin's lymphoma, **987**
—— probes, biotinylated, hybridised in situ, visualisation of (L), **230**
Dyserythropoietic anaemia, type I, congenital, erythroblast function in 2 patients with, evidence of impaired DNA, RNA, and protein synthesis and other abnormalities, **881**
Dysgonic fermenter-2. *See* DF-2
Dyspepsia, non-ulcer, local immune response to gastric *Campylobacter* in, **863**

E rosette inhibitory substance in serum and T lymphocyte numbers (L), **231**
Eccrine poroma, malignant, 3 cases of, **1099**
Electron and light microscopic study of poorly differentiated squamous carcinoma of bronchus, **284**
——————————— of scar adenocarcinoma of lung, **423**
——————— microscopy, analytical, asbestos fibre dust counts in lung tissue obtained by, comparison of results, **313**
—— microscopic and immunohistochemical study of 2 men with peritoneal cystic mesothelioma, **440**
ELISA based monoclonal antibody technique for detection of *Chlamydia* and effects of sample storage (L), **927**
—— for detection of chlamydia antigen, false positive results with (L), **1276**
—— for detection of serum antibodies to *Pseudomonas aeruginosa* cell surface antigens in cystic fibrosis, development of, **1124**
Emphysema and chronic bronchitis, right ventricular weight at nec-

ropsy in, comparison with interstitial pulmonary fibrosis, **594**
Enalapril and captopril, severe cutaneous reactions to, histological study and comparison with early mycosis fungoides, **902**
Encephalitis, herpes, viral localisation in, and human and viral gene detection in paraffin embedded tissue by *in situ* hybridisation with biotinylated probes, **1066**
Endocrine variant of ductal carcinomas *in situ* of breast, ultrastructural and light microscopical studies of 2 cases, **1355**
Endometrial cytology, diagnostic criteria based on composition and architecture of large tissue fragments in smears for, **36**
Endometritis, chlamydial, lymphoid reaction in case of (L), **464**
Endoproteases, pancreatic, and pancreatic secretory trypsin inhibitor immunoreactivity in Paneth cells, **786**
Enolase, neuron specific. *See* Neuron specific enolase
Enteric coronavirus in symptomless homosexuals (L), **1159**
Enterobacteriaceae and other Gram negative rods, low cost identification in clinical laboratories, construction of database for, **798**
Enzyme immunoassay, immunofluoresence, and cell culture for detection of *Chlamydia trachomatis* antigen (L), **232**
Enzyme-linked immunosorbent assay. *See* ELISA
Eosinophilic gastroenteritis (L), **696**
—— infiltrates of gastrointestinal tract *(Review article)*, **1**
Epidermis and other epithelial cells, comparison of HTLV-1 antibody (12/1-2) reactivity in, **547**
Epididymis, isolated arteritis of (L), **114**
Epithelial cells from epidermis and elsewhere, comparison of HTLV-1 antibody (12/1-2) reactivity in, **547**
—— membrane antigen and cytokeratin expression by meningiomas, immunohistological study, **435**
—— —— ——, fibronectin, and laminin, antisera to, study of childhood renal tumours using, **51**
—— tumours, malignant, associated with autoimmune sialadenitis, 2 British cases of, **497**
Epstein-Barr virus infection, fatal case of, lymphoproliferative lesions in, immunohistological studies, **1317**
Erythroblast function in 2 patients with congenital dyserythropoietic anaemia, type I, evidence of impaired DNA, RNA, and protein synthesis and other abnormalities, **881**
Erythroblastopenia in iron deficiency anaemia, human parvovirus associated with (L), **1277**
Erythrocyte antioxidative enzyme activities, comparison between 2 types of haemoglobin H disease, **1296**
—— deformability in diabetes mellitus, effects of hyperglycaemia and sorbitol accumulation, **722**
—— radiolabelling with chromium, technetium, and indium, *in vitro* comparison in undamaged and heat damaged cells, **717**
——. *See also* Red cell
Erythrocytes, ^{111}In labelling of, clinical use in haemolytic anaemias (L), **464**
Erythrocytic multinuclearity, hereditary, with positive acidified serum (Hams) test. *See* HEMPAS
Escherichia coli, *Bacteroides* sp, and polymorphonuclear leucocytes, interactions between, role in pathogenesis of mixed infection, **376**
—— —— meningitis and *Strongyloides stercoralis* hyperinfestation syndrome, 2 cases of, **366**
Ethmoid sinus, invasive aspergillosis of, cerebral and orbital *Aspergillus* infection due to, case of, **774**
Eyes, identification of non-capsulate strains of *Streptococcus pneumoniae* isolated from, **871**
—— of neonates, sticky, indifferent streptococci in (L), **116**

Fatty acids, free, hepatic, raised, in patient with acute fatty liver after gastric surgery for morbid obesity, **647**
Femur, neck of, fractured, and contralateral intracerebral lesions, **920**
Ferritin, serum concentration in sickle cell crisis, **253**
Fetuses, aborted, prenatal diagnosis, examination of terminated specimens and description of anomalies *(Review article)*, **1049**
——, second trimester, calcium homeostasis in, **838**
Fibrils, cytoplasmic, bundles of, in 50 cases of acute myeloid leukaemia, correlation with nuclear morphology, **99**
Fibrin polymerisation, laster nephelometry measurement of, **227**
Fibrinogen, activation of platelet aggregation mediated by (L), **344**
Fibronectin and laminin in adenoid cystic carcinoma, **138**
——, laminin, and epithelial membrane antigen, antisera to, study of childhood renal tumours using, **51**
Filaments, intermediate, different classes of, coexpression by human lung tumours, **950**
Flow cytometry, DNA and oncoprotein analysis using, cervical brush biopsy specimens suitable for, **577**
—— —— for DNA in non-Hodgkin's lymphomas, prognostic importance of, **542**
Fluorescence study of blood group antigen expression in urinary tract tumours using cryostat sections of fresh frozen tissues, **1165**
Formalin pigment removal, effect on peroxidase-antiperoxidase immunoperoxidase technique, **923**
3-Fucosyl-N-acetyllactosamine in Reed-Sternberg cells demonstrated by monoclonal antibody (AGF 4·48), **564**

Gall bladders with chronic and "minimal" cholecystitis, macrophages and mast cells in, **1082**
Gas, arterial blood, analysis of, effect of sodium citrate anticoagulant *in vitro* on results of (L), **1046**
—— capture (Oxoid) system for blood cultures, comparison with Bactec radiometric system, **661**
Gastric *Campylobacter*, local immune response to, in non-ulcer dyspepsia, **863**
—— mucosa, detection of *Campylobacter pyloridis* by phase contrast microscopy in, **112**
—— surgery for morbid obesity, acute fatty liver after, raised hepatic free fatty acids in patient with, **647**
Gastritis, peptic ulceration, and *Campylobacter pyloridis (Review article)*, **353**
—— reflux, and *Campylobacter*-like organisms, **531**
——, ——, as distinct histopathological entity, **524**
Gastroenteritis, eosinophilic (L), **696**
Gastrointestinal endoscopy, upper, *Campylobacter pyloridis* and associated serum IgG and IgA antibody responses in patients undergoing, clinical importance of, **215**
—— tract, eosinophilic infiltrates of *(Review article)*, **1**
Gene detection, human and viral, in paraffin embedded tissue by *in situ* hybridisation with biotinylated probes and viral localisation in herpes encephalitis, **1066**
Genetic disease, human, DNA analysis in *(Review article)*, **1281**
Giant cells, morphological characteristics of, and necropsy findings in case of acute idiopathic interstitial myocarditis, **1209**
Giemsa stain and Gomori's methenamine silver nitrate in simultaneous demonstration of *Pneumocystis carinii* cyst walls and intracystic bodies in paraffin embedded lung sections, **1269**
Glisson's capsule, pseudolipoma of, simulating metastatic tumour, case of (L), **345**
Globin chain synthesis in reticulocytes, increased α:non-α ratios in myelodysplastic syndromes and myeloid leukaemia, **1233**
Glomerulonephritis, membranous, **167**
——, ——, idiopathic, effects of geographical differences, **1193**
Glycoprotein abnormalities in colonic carcinomata, adenomata, and hyperplastic polyps shown by lectin peroxidase histochemistry, **1331**
α_2-Glycoprotein, "pregnancy-associated", in serum, deficiency of, association with disease, **195**
Goblet cells, colorectal, sialomucin heterogeneity in, relation to malignant disease, **1088**
Gomori's methenamine silver nitrate and Giemsa stain in simultaneous demonstration of *Pneumocystis carinii* cyst walls and intracystic bodies in paraffin embedded lung sections, **1269**
Gram-negative aerobic bacilli, identification of, kit systems for (Welsh Standing Specialist Advisory Working Group in Microbiology report), **666**
Gram-positive anaerobic cocci, survival on swabs and isolation from mouth and vagina, **93**

Granuloma, plasma cell, of thyroid, case of, **1105**
Guanidine hydrochloride as reagent for selective inhibition in quantitative method for determining serum alkaline phosphatase isoenzyme activity, **1025, 1031**

H6000, lymphocyte recovery rate using (L), **234**
Haemagglutination kit, Serodia, for HBe, micromodification of, and modification of kit to test for anti-HBe, **332**
—— test, passive, for serological diagnosis of typhoid fever in endemic area, comparison with Widal agglutination test, **680**
Haemangioblastomas of central nervous system and CNS metastases of renal carcinomas, differential diagnosis of, immunoperoxidase labelled antibody staining in, **917**
Haemic cells, normal and malignant, dipeptidyl aminopeptidase II and IV in, comparative cytochemical study, **891**
Haemochromatosis, idiopathic, and HLA antigens in Italy, with A3 Bw35 HLA haplotype as marker for idiopathic haemochromatosis gene in NE regions, **125**
Haemoglobin electrophoresis, effect of beta-propiolactone (L), **814**
—— H disease, comparison of erythrocyte antioxidative enzyme activities between 2 types of, **1296**
Haemolytic anaemia, immune, and nomifensine treatment, 6 cases in NW England (1984–85), **1147**
—— anaemias, clinical use of ^{111}In labelling of red cells in (L), **464**
—— uraemic syndrome, classification of (L), **812**
Haemophilus influenzae and other postoperative chest infections, study of, **78**
———— antimicrobial susceptibility testing, trial for UK national external quality assessment scheme for microbiology, **1006**
————, biotyping of, comparison of API-10S strips and tube tests for (L), **692**
Haemopoiesis, extramedullary, intestinal, and acute small bowel obstruction, myelofibrosis complicated by, case of, **677**
Haemostasis in 2 patients with reduced serum vitamin K_1 concentrations, effects of cefotetan, **1245**
Hageman factor, high molecular weight kininogen and prekallikrein in chronic liver disease, **1003**
Head injury, non-missile, pituitary gland abnormalities in, analysis in 100 consecutive cases, **769**
Heart disease, congenital, demonstration by inflation and wax impregnation technique, **503**
————, ischaemic, acute, serum amyloid A concentrations during course of, **635**
—— diseases, aetiology of, role of toxoplasmosis in, immunobiological investigation, **204**
—— transplants, *Toxoplasma gondii* infections in recipients of, serological diagnosis problems in, **1135**
HEMPAS, parvovirus infection associated with aplastic crisis in patient with, **1019**
Hepatic tumours and tumour like conditions, benign, in men, **183**
—— vein lesions in alcoholic liver disease, retrospective biopsy and necropsy study, **63**
Hepatitis A virus infection as disease of Kupffer cells (L), **1160**
—— B surface antigen, antibody to, donor screening for (L), **583**
———— virus particles, concentration of, rapid method using Beckman airfuge, **808**
—— Be haemagglutination kit, Serodia, micromodification of, and modification of kit to test for anti-HBe, **332**
—— delta virus, chronic liver disease caused by, autoimmunity in, **897**
Herpes encephalitis, viral localisation in, and human and viral gene detection in paraffin embedded tissue by *in situ* hybridisation with biotinylated probes, **1066**
Hickman catheters, source of infection in (L), **1046**
High molecular weight kininogen, Hageman factor, and prekallikrein in chronic liver disease, **1003**
Hip joint replacement specimens, cemented, plastic processing of, **339**
Histiocytosis, malignant, complicating rheumatoid arthritis, 4 cases of, **16**
—— of intestine, malignant, immunophenotype analysis of, **8**
Histopathological specimens, large format, examination and recording of (L), **690**
HIV infection. *See* AIDS
HLA antigens and idiopathic haemochromatosis in Italy, with A3 Bw35 HLA haplotype as marker for idiopathic haemochromatosis gene in NE regions, **125**
Hodgkin's disease, diagnosis of, use of Leu M1 and antiepithelial membrane antigen monoclonal antibodies for, **267**
Homosexuals, symptomless, enteric coronavirus in (L), **1159**
HTLV-I. *See* Human T lymphotrophic retrovirus
HTLV-III antibody, AIDS and anti-HTLV-III positive laboratory reagents (L), **346**
—— infection and "high risk" labelling of specimens, time for rethinking? (L), **114**; (L), **811**
Human immunodeficiency virus infection. *See* AIDS
—— T cell leukaemia virus. *See* HTLV
—— T lymphotrophic retrovirus antibody (12/1-2), reactivity of, comparison between epidermis and other epithelial cells, **547**
Hypercalcaemia in T cell acute lymphoblastic leukaemia, 2 cases of, **1143**
——, renal tubular calcium reabsorption in, clinical assessment of, influence of urinary sodium excretion, **641**
Hyperglycaemia and sorbitol accumulation, effects on erythrocyte deformability in diabetes mellitus, **722**
Hypertension caused by alcohol, interactive roles of monovalent and divalent cations in pathogenesis, **1264**
Hypothyroidism, strategy for testing thyroid function applied to, evaluation of, **293**; (L), **1278**

Image analysis, semiautomatic, in morphometry of spermatozoa, **1347**
Immune deficiency syndrome, acquired. *See* AIDS
—— response, local, to gastric *Campylobacter* in non-ulcer dyspepsia, **863**
Immunoblot analysis of serological response to *Pseudomonas aeruginosa* septicaemia, **1306**
Immunoblotting, *Chlamydia trachomatis* urethritis detected by, antigenic specificity of serological response in, **325**
Immunocytochemical characterisation of cutaneous non-Hodgkin's lymphomas other than mycosis fungoides, **553**
—— labelling with antibody Ki67 for assessment of lung tumours, **590**
—— staining for identification of cells in peritoneal fluid and washings at laparoscopy and laparotomy, **1335**
—— study of 18 tumours causing ectopic Cushing's syndrome, **955**
Immunofluorescence, anticomplement, for antibody titration, importance for diagnosis of varicella-zoster virus infection in Bell's palsy, **1254**
—— test, commercial, for identification of *Legionella pneumophila* (L), **693**
Immunoglobulin A deficiency, latex agglutination method for, in large scale screening of blood donor sera, **458**
———— deposition in alcoholic liver disease, **1181**
—— G and A antibody responses in serum associated with *Campylobacter pyloridis* in patients undergoing upper gastrointestinal endoscopy, clinical importance of, **215**
———— subclasses, distribution in anti-A and anti-B sera, **684**
—— heavy chains, distribution in diseased synovia, **731**
—— M, human parvovirus (B19) specific, in antigen positive serum (L), **118**
—— preparations, intravenous, opsonic activity against *Staphylococcus epidermidis*, **856**
—— response, class specific, to individual *Chlamydia trachomatis* polypeptides, elementary bodies, and reticulate bodies in chlamydial infection, **1313**
Immunogold-silver technique demonstrating benign and malignant (B cell) focal lymphoid aggregates in bone marrow trephines, **453**
Immunohistochemical analysis of mononuclear cell subsets in inflammatory and non-inflammatory myopathies, **271**
—— and electron microscopic study of 2 men with peritoneal cystic

mesothelioma, **440**
—— demonstration of carcinoembryonic antigen expression in normal, chronically inflamed, and malignant pancreatic tissue, **610**
—— detection of *ras* oncogene p21 product in benign and malignant mammary tissue, **428**
—— diagnosis of tumours on routine surgical sections using cytokeratin, common leucocyte, and other markers, **514**
Immunohistological analysis of case of metastatic thymoma, **275**
—— studies of lymphoproliferative lesions in fatal case of Epstein-Barr virus infection, **1317**
—— study of epithelial membrane antigen and cytokeratin expression by meningiomas, **435**
Immunolocalisation of cathepsin D in normal and neoplastic human tissues, **1323**
Immunoperoxidase labelled antibody staining in differential diagnosis of central nervous system haemangioblastomas and CNS metastases of renal carcinomas, **917**
——, peroxidase-antiperoxidase immunoperoxidase technique, effect of formalin pigment removal, **923**
—— staining and monoclonal antibody in detection of group B streptococcal antigen in necropsy specimens, **223**
—— study of new marker for mesothelioma, **961**
Immunophenotype analysis of malignant histiocytosis of intestine, **8**
Immunoreactivity of Reed Sternberg cells in paraffin and frozen sections (L), **1043**
Indium, chromium, and technetium erythrocyte radiolabelling, *in vitro* comparison in undamaged and heat damanged cells, **717**
^{111}Indium labelling of red cells, clinical use in haemolytic anaemias (L), **464**
Infant death syndrome, sudden, and cytomegalovirus inclusion disease, **383**
Infants, premature, chronic respiratory disease caused by *Chlamydia trachomatis* in, **84**; (L), **698**
Interferon treatment and bone marrow necrosis (L), **1045**
Interstitial myocarditis, idiopathic, acute, necropsy findings in case of, and morphological characteristics of giant cells (L), **1209**
Intestinal extramedullary haemopoiesis and acute small bowel obstruction, myelofibrosis complicated by, case of, **677**
—— lymphangiectasia, impaired neutrophil function in, **876**
—— spirochaetes, isolation and characterisation of, **535**
Intestine, small, adenomatosis of, case of, **981**
Intestines, histiocytosis of, malignant, immunophenotype analysis of, **8**
Intracerebral lesions, contralateral, and fractured neck of femur, **920**
Iron deficiency anaemia, erythroblastopenia in, human parvovirus associated with (L), **1277**
—— state in α and β thalassaemia trait, **256**
Isoamylases in serum and liver diseases (L), **464**
Italy, idiopathic haemochromatosis and HLA antigens in, with A3 Bw35 HLA haplotype as marker for idiopathic haemochromatosis gene in NE regions, **125**

Jejunum, human, isolation of *Clostridium difficile* from, and possible identification of jejunum as reservoir for disease, **861**

Kaposi's sarcoma, histogenesis of, in patients with and without AIDS, **742**
—— —— in AIDS, **469**
Karyotypes, G banded, in myeloma cells, analysis of, **260**
Keratocysts, odontogenic, fluids from, protein apparently specific to, recognition of, **1108**
Kikuchi's disease. *See* Lymphadenitis, necrotising
Kininogen, high molecular weight. *See* High molecular weight kininogen
Kupffer cells, hepatitis A virus infection as disease of (L), **1160**
Kveim suspension, intradermal injection of, early cellular responses to, in normal subjects and in sarcoidosis, **176**

Laboratories, clinical, communication in, program ("Mailbox") for improvement of, **828**
Laboratory safety and "high risk" labelling of specimens, time for rethinking? (L), **114**; (L), **811**
β Lactamase, "non-pathogens" producing, in chronic obstructive airways disease, detection and importance of (L), **343**
Lamina propria mast cells in biopsies from children with Crohn's disease, **279**
Laminin and fibronectin in adenoid cystic carcinoma, **138**
——, fibronectin, and epithelial membrane antigen, antisera to, study of childhood renal tumours using, **51**
Laparoscopy and laparotomy, cell identification in peritoneal fluid and washings at, immunocytochemical staining for, **1335**
Larynx, mast cell sarcoma of, case of, **596**
Laser ion mass analyser in diagnosis of chronic beryllium disease, **900**
—— nephelometry measurement of fibrin polymerisation, **227**
Latex agglutination method for IgA deficiency in large scale screening of blood donor sera, **458**
—— —— system (Staphaurex) for testing coagulase production by *Staphylococcus aureus* strains, comparison with 2 traditional methods, **371**
—— particle agglutination for detection and identification of *Clostridium difficile*, **212**
Lectin peroxidase histochemistry in demonstration of glycoprotein abnormalities in colonic carcinomata, adenomata, and hyperplastic polyps, **1331**
Lectins, peroxidase conjugated, in study of childhood renal tumours, **736**
Legionella pneumophila, identification with commercial immunofluorescence test (L), **693**
Leucocyte common antigen, cytokeratin, and other markers in immunohistochemical diagnosis of tumours on routine surgical sections, **514**
Leucocytes, polymorphonuclear, *Bacteroides* sp, and *Escherichia coli*, interactions between, role in pathogenesis of mixed infection, **376**
Leukaemia, acute, transformation of essential thrombocythaemia to, 2 cases of, **1301**
——, biphenotypic (mixed acute T lymphoblastic and acute myeloblastic leukaemia) (L), **343**
——, lymphoblastic, acute, myeloblastic syndrome coexisting with, case of, **728**
——, ——, ——, T cell, hypercalcaemia in, 2 cases of, **1143**
——, ——, ——, terminal deoxynucleotidyl transferase positive cells in testicular biopsy specimens from boys with, **1236**
——, ——, childhood, French American British (FAB) morphological classification of, clinical importance of, **998**
——, lymphocytic, chronic, autoimmunity in, **713**
——, myeloblastic, acute, Auer rods in, crystal structure of, **569**
——, myeloid, acute, correlations between nuclear morphology and bundles of cytoplasmic fibrils in 50 cases of, **99**
——, ——, and myelodysplastic syndromes, increased reticulocyte α:non-α globin chain synthesis ratios in, **1233**
Light and electron microscopic study of poorly differentiated squamous carcinoma of bronchus, **284**
—— —— —— —— of scar adenocarcinoma of lung, **423**
—— —— —— microscopy, analytical, asbestos fibre dust counts in lung tissue obtained by, comparison of results, **313**
—— chains, urinary, in myelomatosis, isoelectric points of, analysis in relation to nephrotoxicity, **833**
Lipase, pancreatic, and immunoreactive trypsin in serum in primary biliary cirrhosis, **638**
Liver and α_1-antitrypsin, results of routine immunohistological screen, **58**
—— biopsies, PLP fixation for combined routine histology and immunocytochemistry, **459**
—— cytology, wash off, as complementary diagnostic tool to liver biopsy, **449**
—— disease, alcoholic, hepatic vein lesions in, retrospective biopsy and necropsy study, **63**
——, ——, ——, IgA deposition in, **1181**
—— —— and serum isoamylases (L), **464**
—— ——, chronic, caused by hepatitis delta virus, autoimmunity in, **897**

——, ——, ——, Hageman factor, high molecular weight kininogen, and prekallikrein in, **1003**
——, fatty, acute, after gastric surgery for morbid obesity, raised hepatic free fatty acids in patient with, **647**
——, pseudotumour of, inflammatory, 5 cases of, **761**
——. *See also* Hepatic
Lung, carcinoma of, small cell, somatostatin and ACTH like immunoreactivity in, **418**
——, fine needle aspiration cytology of, experience with cell block technique in (L), **114**
——, scar adenocarcinoma of, light and electron microscopic study, **423**
—— sections, paraffin embedded, *Pneumocystis carinii* cyst walls and intracystic bodies in, simultaneous demonstration with Gomori's methenamine silver nitrate and Giemsa stain, **1269**
—— tissue, asbestos fibre dust counts obtained by analytical electron and light microscopy in, comparison of results, **313**
—— tumours, assessment by immunocytochemical labelling with antibody Ki67, **590**
—— ——, human, coexpression of different classes of intermediate filaments by, **950**
——. *See also* Pulmonary
Lupus nephritis, clinicopathological study of 162 cases in Thailand, **160**
Lymph node imprint in rapid diagnosis of lymph node biopsy specimens, evaluation of, **688**
—— nodes, breast carcinoma with spread to, characterisation of cancer cells with high malignant potential in, **603**
—— ——, "centrorrhexis" as term for "new" reaction pattern of (L), **1042**
Lymphadenitis, necrotising, without granulocytic infiltration (Kikuchi's disease) (L), **811, 812**
Lymphadenopathy, angioimmunoblastic, monoclonal T cell proliferation in, evidence for, **1229**
Lymphangiectasia, intestinal, impaired neutrophil function in, **876**
Lymphoblastic leukaemia, acute, myeloblastic syndrome coexisting with, case of, **728**
—— ——, ——, T cell, hypercalcaemia in, 2 cases of, **1143**
—— ——, ——, terminal deoxynucleotidyl transferase positive cells in testicular biopsy specimens from boys with, **1236**
—— ——, childhood, French American British (FAB) morphological classification of, clinical importance of, **998**
——. *See also* T lymphoblastic
Lymphocyte infiltration and survival in rectal cancer, **585**
—— recovery rate using H6000 (L), **234**
——. *See also* T cell (s)
Lymphocytic leukaemia, chronic, autoimmunity in, **713**
Lymphoid aggregates, focal, benign and malignant (B cell), in bone marrow trephines demonstrated by immunogold-silver technique, **453**
—— reaction in case of chlamydial endometritis (L), **464**
—— tissue, normal, Reed Sternberg associated antigen Ki-1 positive cells in, high proliferative activity of, **993**
Lymphoma, differentiation from small cell anaplastic carcinoma of thyroid by immunocytochemistry (L), **231**
——, T cell, marrow involvement with, 3 cases initially presenting as abnormal myelopoiesis, **134**
Lymphomas, non-Hodgkin's, cutaneous, other than mycosis fungoides, immunocytochemical characterisation of, **553**
——, ——, DNA flow cytometry in, prognostic importance of, **542**
——, ——, —— ploidy patterns and cytokinetics, **987**
Lymphoproliferative lesions in fatal case of Epstein-Barr virus infection, immunohistological studies, **1317**
Lysis filtration as adjunct to conventional blood culture, evaluation of, **89**

Macrophages and mast cells in gall bladders with chronic and "minimal" cholecystitis, **1082**
—— and microglial cells in brain labelled by monoclonal antibody to macrophages (EMB/11), **615**
Malignant disease, relation to colorectal goblet cell sialomucin heterogeneity, **1088**
Marrow. *See* Bone marrow
Mast cell sarcoma of larynx, case of, **596**
—— cells and macrophages in gall bladders with chronic and "minimal" cholecystitis, **1082**
—— —— of lamina propria in biopsies from children with Crohn's disease, **279**
Megakaryocytes, pulmonary, "missing link" between cardiovascular and respiratory disease?, **969**
Melanocytic naevi, "dysplastic", proposed alternative terminology and subclassification, **189**
—— tumours, S100 protein and neurone specific enolase in, measurement using video image analysis, **1096**
Membranous glomerulonephritis, **167**
—— ——, idiopathic, effects of geographical differences, **1193**
Meningiomas, epithelial membrane antigen and cytokeratin expression by, immunohistological study, **435**
——, oestrogen and progesterone receptors in, cryostat section assay of, clinicopathological study, **44**
——, progesterone receptors in, morphometric assessment of vascularity and cellularity on near facsimile cryostat sections (L), **810**
Meningitis and septicaemia caused by dysgonic fermenter-2 (DF-2), case of, **1021**
——, bacterial, normocellular, 4 cases of (L), **694**
——, *E coli*, and *Strongyloides stercoralis* hyperinfestation syndrome, 2 cases of, **366**
Meningococcal septicaemia, coagulopathy associated with, case of, **1304**
Mesoblastic nephroma, study of 38 cases, **508**
Mesothelioma, cystic, peritoneal, electron microscopic and immunohistochemical study of 2 men with, **440**
——, new marker for, immunoperoxidase study, **961**
—— of atrioventricular node, primary, causing sudden death, case of (L), **926**
N-Methyl-thiotetrazole cephalosporins. *See* Cefotetan
Microcomputer, use as aid in teaching of pathology, **1140**
Microglial cells and macrophages in brain labelled by monoclonal antibody to macrophages (EBM/11), **615**
Micro-organisms, growth in blood cultures, detection of, novel method for, **1259**
Microscopy, phase contrast, in detection of *Campylobacter pyloridis* in gastric mucosa, **112**
Mobiluncus spp, pathogenic role in non-puerperal breast abscess (L), **342**
Monoclonal antibodies, human, use in flow cytometry for determination of Rh(D) genotype, **1039**
—— ——, Leu M1 and antiepithelial membrane antigen, use for diagnosis of Hodgkin's disease, **267**
—— antibody (AGF 4-48) in demonstration of 3-fucosyl-N-acetyllactosamine in Reed-Sternberg cells, **564**
—— —— and immunoperoxidase staining in detection of group B streptococcal antigen in necropsy specimens, **223**
—— —— ELISA based technique for detection of *Chlamydia* and effects of sample storage (L), **927**
—— —— (Ki-67), assessment of lung tumours by immunocytochemical labelling with, **590**
—— —— —— in determination *in situ* of growth fractions in breast cancer, **977**
—— —— (SMP) binding to congophilic elements in human Alzheimer brain, **1199**
—— —— to HTLV-1 (12/1-2), reactivity of, comparison between epidermis and other epithelial cells, **547**
—— —— to macrophages (EBM/11), brain macrophages and microglial cells labelled by, **615**
—— —— (UCHL1) recognising normal and neoplastic T cells in routinely fixed tissues, **399**
—— T cell proliferation in angioimmunoblastic lymphadenopathy, evidence for, **1229**
Mononuclear cell subsets in inflammatory and non-inflammatory

myopathies, immunohistochemical analysis of, **271**
Mountaineering accidents in Scotland, necropsy study of (July 1978-December 1983), **1217**
Mouth and vagina, survival of Gram positive anaerobic cocci on swabs and isolation from, **93**
Mucin histochemistry, value in follow up surveillance in long standing ulcerative colitis, **393**
Mucosa, gastric, detection of *Campylobacter pyloridis* by phase contrast microscopy in, **112**
Muscular pulmonary arteries, intima of, effects of age and smoking, **1204**
Mutation and disease, **1283**
Mycobacterium leprae, staining in epoxy resin sections, **111**
Mycosis fungoides, early, comparison with severe cutaneous reactions to captopril and enalapril, **902**
Myeloblastic leukaemia, acute, and acute T lymphoblastic leukaemia, mixed (biphenotypic leukaemia) (L), **343**
—— ——, ——, Auer rods in, crystal structure of, **569**
Myelodysplastic syndrome coexisting with acute lymphoblastic leukaemia, case of, **728**
—— syndromes and myeloid leukaemia, increased reticulocyte α:non-α globin chain synthesis ratios in, **1233**
Myelofibrosis complicated by intestinal extramedullary haemopoiesis and acute small bowel obstruction, case of, **677**
Myeloid leukaemia, acute, correlations between nuclear morphology and bundles of cytoplasmic fibrils in 50 cases of, **99**
—— —— and myelodysplastic syndromes, increased reticulocyte α:non-α globin chain synthesis ratios in, **1233**
Myeloma cells, G banded karyotypes in, analysis of, **260**
Myelomatosis, urinary light chains in, isoelectric points of, analysis in relation to nephrotoxicity, **833**
Myelopoiesis, abnormal, marrow involvement with T cell lymphoma initially presenting as, 3 cases of, **134**
Myeloproliferative disorders, chronic, working classification based on histological, haematological, and clinical findings, **237**
Myocardial infarction, acute, diagnosis at necropsy (L), **1161**
—— ——, carcinoma of bronchus mimicking, plasma enzyme changes in (L), **1158**
—— ——, suspected, request patterns for clinical biochemistry tests in, differences between British and Canadian cardiac care units, **803**
Myocarditis, interstitial, idiopathic, acute, necropsy findings in case of, and morphological characteristics of giant cells, **1209**
Myopathies, inflammatory and non-inflammatory, mononuclear cell subsets in, immunohistochemical analysis of, **271**

Naevi, atypical, prevalence in general pathology practice (L), **929**
——, melanocytic, "dysplastic", proposed alternative terminology and subclassification, **189**
Natriuretic peptide, atrial, immunoreactive, in atrial amyloid, identification of (L), **581**
Neisseria gonorrhoeae, cryptic plasmid of, homology with plasmids from *N meningitidis* and *N lactamica*, **1119**
Neonates, eyes of, sticky, indifferent streptococci in (L), **116**
——, Nigerian, and mothers at term, vitamin D nutrition in, **650**
Neoplasia, intraepithelial, cervical, squamous, cervical glandular atypia associated with, premalignant lesion?, **22**
——, ——, ——, with associated human papillomavirus 6 and 16 infections, histological and immunocytochemical study, **1177**
Neoplastic human tissues, cathepsin D in, immunolocalisation of, **1323**
Nephroma, mesoblastic, study of 38 cases, **508**
Nephrotoxicity, analysis of isoelectric points of urinary light chains in myelomatosis in relation to, **833**
Nervous system, central. *See* Central nervous system
Neuron specific enolase and S100 protein in melanocytic tumours, measurement using video image analysis, **1096**
—— —— —— antiserum staining reactions in sarcomas and carcinomas and lack of neuroendocrine specificity, **1186**
Neutrophil function, impairment in intestinal lymphangiectasia, **876**
Nigerian women, pregnant, at term and newborn infants, vitamin D nutrition in, **650**
Nitrate reduction by bacteria, commercial strip test for (L), **118**
Nomifensine treatment and immune haemolytic anaemia, 6 cases in NW England (1984–85), **1147**
Notices, **120, 235, 352, 468, 584, 700, 816, 932, 1048, 1163, 1280, 1367**
Nuclear diameter in parathyroid carcinomas, **1353**
—— morphology in 50 cases of acute myeloid leukaemia, correlation with bundles of cytoplasmic fibrils, **99**

Obesity, morbid, acute fatty liver after gastric surgery for, raised hepatic free fatty acids in patient with, **647**
Odontogenic keratocyst fluids, protein apparently specific to, recognition of, **1108**
Oestrogen and progesterone receptors in meningiomas, cryostat section assay of, clinicopathological study, **44**
—— receptor assays using frozen breast tumours, quality control of (L), **690**
Oncogenesis, DNA probes in, **1289**
Oncoprotein and DNA analysis using flow cytometry, cervical brush biopsy specimens suitable for, **577**
Orbital and cerebral *Aspergillus* infection due to invasive aspergillosis of ethmoid sinus, case of, **774**
Ovarian sex cord tumour with annular tubules, progesterone production in case of, **29**
—— theca-lutein cysts, gestational trophoblastic disease complicated by, abnormal steroid excretion in, **627**
—— tumours, prognosis of, morphometric data, Figo stage, histological type and grade for, **1340**
Oviductal and cervical epithelium, human, nature of "basal" and "reserve" cells in, **306**
Oxidation. *See* antioxidative enzyme
Oxoid gas capture system for blood cultures, comparison with Bactec radiometric system, **661**
Oxyphil cells in thyroid disease, uniform change in?, **908**

Paediatric urine screening, dipstick analysis for, **1360**
Pancreatic cancer, diagnosis of, comparison of accuracy of tissue polypeptide antigen and serum CEA in, **75**
—— endoproteases and pancreatic secretory trypsin inhibitor immunoreactivity in Paneth cells, **786**
—— lipase and immunoreactive trypsin in serum in primary biliary cirrhosis, **638**
—— tissue, normal, chronically inflamed, and malignant, carcinoembryonic antigen expression in, immunohistochemical demonstration of, **610**
Pancreatitis, necrotising, acute, clinical pathology of, **68**
Paneth cells, pancreatic endoproteases and pancreatic secretory trypsin inhibitor immunoreactivity in, **786**
Papillomavirus, human, in condyloma acuminata of anus (L), **927**
——, ——, types 6 and 16, infection with, cervical intraepithelial neoplasia associated with, histological and immunocytochemical study, **1177**
Parathyroid and adrenal autoantibodies, coexisting, rarity of (L), **813**
—— carcinomas, nuclear diameter in, **1353**
Parvovirus (B19 virus), human, IgM specific for, in antigen positive serum (L), **118**
——, human, associated with erythroblastopenia in iron deficiency anaemia (L), **1277**
—— infection associated with aplastic crisis in patient with HEMPAS, **1019**
Pathology teaching, use of microcomputer as aid in, **1140**
Peptic ulcer, gastritis, and *Campylobacter pyloridis (Review article)*, **353**
Periodate-lysine-paraformaldehyde fixation for combined routine histology and immunocytochemistry of liver biopsies, **459**
Peritoneal cystic mesothelioma, electron microscopic and immunohistochemical study of 2 men with, **440**
—— dialysis, ambulatory, chronic, coagulase negative staphylococci in, production of slime by, clinical importance of (L), **117**

——fluid and washings at laparoscopy and laparotomy, cell identification in, immunocytochemical staining for, **1335**
Peritonitis in continuous ambulatory peritoneal dialysis, laboratory diagnosis by lysis and centrifugation, **925**
Peroxidase conjugated lectins in study of childhood renal tumours, **736**
Peroxidase-antiperoxidase immunoperoxidase technique, effect of formalin pigment removal, **923**
Pilar tumour of scalp, metastasising, case of, **757**
Pituitary gland abnormalities in non-missile head injury, analysis in 100 consecutive cases, **769**
Plasma cell granuloma of thyroid, case of, **1105**
——enzyme changes in carcinoma of bronchus mimicking myocardial infarction (L), **1158**
Plasmid, cryptic, of *Neisseria gonorrhoeae*, homology with plasmids from *N meningitidis* and *N lactamica*, **1119**
Plasminogen activator release from vein walls, *in vitro* stimulation by adrenaline, **1241**
Plastic processing of cemented hip joint replacement specimens, **339**
Platelet aggregation, fibrinogen mediated activation of (L), **344**
——function, laboratory investigation of, methodology for *(Review article)*, **701**
——volume analysis for differential diagnosis of thrombocytosis, **129**
Ploidy studies in adenomatous polyps of colon (L), **695, 696, 1276**
PLP. *See* Periodate-lysine-paraformaldehyde
Pneumocystis carinii cyst walls and intracystic bodies in paraffin embedded lung sections, simultaneous demonstration with Gomori's methenamine silver nitrate and Giemsa stain, **1269**
————pneumonia, diagnosis by cytological examination of bronchoalveolar lavage fluid in 15 cases, **945**
Pneumonias, serum angiotensin converting enzyme in, **1250**
Polyps, adenomatous, of colon, ploidy studies in (L), **695, 696, 1276**
——, hyperplastic, carcinoma, and adenoma, colonic, glycoprotein abnormalities shown by lectin peroxidase histochemistry, **1331**
Poroma, eccrine, malignant, 3 cases of, **1099**
Poster demonstrations, preparation with word processors, **338**; (L), **1364**
"Pregnancy-associated" α_2-glycoprotein in serum, deficiency of, association with disease, **195**
Pregnant Nigerian women at term and newborn infants, vitamin D nutrition in, **650**
Prekallikrein, Hageman factor and high molecular weight kininogen in chronic liver disease, **1003**
Prenatal diagnosis, examination of terminated fetuses and description of anomalies *(Review article)*, **1049**
Progesterone and oestrogen receptors in meningiomas, cryostat section assay of, clinicopathological study, **44**
——production in case of ovarian sex cord tumour with annular tubules, **29**
——receptors in meningiomas, morphometric assessment of vascularity and cellularity on near facsimile cryostat sections (L), **810**
Prostate and prostatic urethra, infarcts of, necropsy study of, **1221**
Prostatic adenocarcinoma evolving into carcinoid, 2 cases of, selective effect of hormonal treatment?, **750**
Protein apparently specific to odontogenic keratocyst fluids, recognition of, **1108**
Pseudolipoma of Glisson's capsule simulating metastatic tumour, case of (L), **345**
Pseudolymphoma, hypersensitivity to carbamazepine presenting as, case of, **1224**
Pseudomonas aeruginosa cell surface antigens, serum antibodies to, in cystic fibrosis, development of ELISA for detection of, **1124**
————from cystic fibrosis, inhibition by selective media, **220**
————septicaemia, serological response to, immunoblot analysis of, **1306**
——*maltophilia*, susceptibility testing of (L), **463**
Pseudotumour, inflammatory, of liver, 5 cases of, **761**
Pulmonary arteries, muscular, intima of, effects of age and smoking, **1204**
————, ——, intimal component of, measurement of (L), **697**
——fibrosis, interstitial, right ventricular weight at necropsy in, comparison with chronic bronchitis and emphysema, **594**
——megakaryocytes, "missing link" between cardiovascular and respiratory disease?, **969**
——. *See also* Lung
Pyomyositis, non-tropical, case of, **1116**

Quality assessment, external, UK national scheme for microbiology, trial of *Haemophilus influenzae* antimicrobial susceptibility testing for, **1006**
——control of oestrogen receptor assays using frozen breast tumours (L), **690**

Racial differences in red cell indices, **105**; *Erratum*, **816**
Radioimmunoassay kit, new, for determination of urinary albumin at low concentrations, assessment and comparison with radial immunodiffusion, **1151**
Radiometric (Bactec) system for blood cultures, comparison with Oxoid gas capture system, **661**
Ras oncogene p21 product in benign and malignant mammary tissue, immunohistochemical detection of, **428**
Rectal carcinoma, lymphocytic infiltration and survival in, **585**
Red cell indices, racial differences in, **105**; *Erratum*, **816**
————. *See also* Erythrocyte(s)
Reed-Sternberg cells, antigen Ki-1 positive cells in normal lymphoid tissue associated with, high proliferative activity of, **993**
————, 3-fucosyl-N-acetyllactosamine demonstrated by monoclonal antibody (AGF 4·48) in, **564**
————, immunoreactivity in paraffin and frozen sections (L), **1043**
Reflux gastritis and *Campylobacter*-like organisms, **531**
————as distinct histopathological entity, **524**
Renal allograft histology and cyclosporin, **145**
————recipients immunosuppressed with cyclosporin A, yellow and blue-green fluorescence in renal tubular cells, red blood cells, and lymphocytes in urinary sediments of (L), **116**
——allografts, morphological differentiation between rejection and cyclosporin nephrotoxicity in, **152**
——carcinoma, central nervous system metastases of, and CNS haemangioblastomas, differential diagnosis of, immunoperoxidase labelled antibody staining in, **917**
——tubular calcium reabsorption in hypercalcaemia, clinical assessment of, influence of urinary sodium excretion, **641**
——tumours, childhood, study using antisera to fibronectin, laminin, and epithelial membrane antigen, **51**
————, ——, ————peroxidase conjugated lectins, **736**
Respiratory and cardiovascular disease, pulmonary megakaryocytes "missing link" between?, **969**
——disease, chronic, in premature infants caused by *Chlamydia trachomatis*, **84**; (L), **698**
Restriction enzyme analysis of cytomegalovirus DNA for study of transmission of infection, **318**
Reticulocyte globin chain synthesis, increased α:non-α ratios in myelodysplastic syndromes and myeloid leukaemia, **1233**
Rh(D) genotype determination, use of human monoclonal antibodies in flow cytometry for, **1039**
Rheumatoid arthritis complicated by malignant histiocytosis, 4 cases of, **16**

S100 protein and neurone specific enolase in melanocytic tumours, measurement using video image analysis, **1096**
Safcty, laboratory, and "high risk" labelling of specimens, time for rethinking? (L), **114**; (L), **811**
Salivary glands, sublabial, histological changes due to aging process in, morphometric study of, **406**
Sarcoidosis, early cellular responses to intradermal injection of Kveim suspension in, **176**
——of breast, case of, **446**
Sarcoma, Kaposi's, histogenesis of, in patients with and without AIDS, **742**
————, ——, in AIDS, **469**
——, mast cell, of larynx, case of, **596**

Sarcomas and carcinomas, antineuron specific enolase staining reactions in, and lack of neuroendocrine specificity, **1186**
Scalp, pilar tumour of, metastasising, case of, **757**
Scar adenocarcinoma of lung, light and electron microscopic study, **423**
Senile dementia of Alzheimer type and aging, effects on dihydropteridine reductase activity in dried blood spots, **199**
Septicaemia and meningitis caused by dysgonic fermenter-2 (DF-2), case of, **1021**
——, meningococcal, coagulopathy associated with, case of, **1304**
——, *Pseudomonas aeruginosa*, serological response to, immunoblot analysis of, **1306**
Serodia HBe haemagglutination kit, micromodification of, and modification of kit to test for anti-HBe, **332**
Serum alkaline phosphatase isoenzyme activity, determination of, quantitative method with guanidine hydrochloride, **1025**, **1031**
—— amyloid A concentrations during course of acute ischaemic heart disease, **635**
———— variations in cancer, correlation with disease activity, stage, primary site, and prognosis, **794**
—— angiotensin converting enzyme in pneumonias, **1250**
——, anti-A and anti-B, distribution of immunoglobulin G subclasses in, **684**
——, antigen positive, human parvovirus (B19) specific IgM in (L), **118**
—— arabinitol estimations for diagnosis of invasive candidosis, **842**
—— C4 concentrations in subjects with and without C4 null alleles, reference ranges for, **573**
—— CEA, diagnostic accuracy in pancreatic cancer, comparison with tissue polypeptide antigen, **75**
—— E rosette inhibitory substance and T lymphocyte numbers (L), **231**
—— ferritin concentration in sickle cell crisis, **253**
—— IgG and IgA antibody responses associated with *Campylobacter pyloridis* in patients undergoing upper gastrointestinal endoscopy, clinical importance of, **215**
—— immunoreactive trypsin and pancreatic lipase in primary biliary cirrhosis, **638**
—— isoamylases and liver diseases (L), **464**
—— "pregnancy-associated" α_2-glycoprotein deficiency, association with disease, **195**
—— vitamin K_1 concentrations, reduced, haemostasis in 2 patients with, effects of cefotetan, **1245**
Sex cord tumour, ovarian, with annular tubules, progesterone production in case of, **29**
Sialadenitis, autoimmune, malignant epithelial tumours associated with, 2 British cases of, **497**
Sialomucin heterogeneity in colorectal goblet cells, relation to malignant disease, **1088**
Sickle cell crisis, serum ferritin concentration in, **253**
———— disease and thalassaemia intermedia, aplastic and hypoplastic episodes in, **121**
Small cell anaplastic carcinoma of thyroid, differentiation from lymphoma by immunocytochemistry (L), **231**
———— carcinoma of lung, somatostatin and ACTH like immunoreactivity in, **418**
Smoking and age, effects on intima of muscular pulmonary arteries, **1204**
Sodium, urinary excretion, influence on clinical assessment of renal tubular calcium reabsorption in hypercalcaemia, **641**
Sodium citrate anticoagulant *in vitro*, effect on results of arterial blood gas analysis (L), **1046**
Somatostatin and ACTH like immunoreactivity in small cell carcinoma of lung, **418**
Sorbitol accumulation and hyperglycaemia, effects on erythrocyte deformability in diabetes mellitus, **722**
Spermatozoa, morphometry using semiautomatic image analysis, **1347**
Spinal injury, urinary tract infection in, C-reactive protein serial concentrations as indicator of, **851**
Spirochaetes, intestinal, isolation and characterisation of, **535**
Squamous cell carcinoma of bronchus, poorly differentiated, light and electron microscopic study, **284**
Staphylococci, coagulase-negative, in chronic ambulatory peritoneal dialysis, production of slime by, clinical importance of (L), **117**
——, ——, typing of, new method for, **1271**
Staphylococcus aureus, catalase-negative (L), **695**
———— strains of differing resistance characters, coagulase production by, comparison of 2 traditional tests with latex agglutination system (Staphaurex), **371**
—— *epidermidis*, opsonic activity of intravenous immunoglobulin preparations against, **856**
Steroid excretion, abnormal, in gestational trophoblastic disease complicated by ovarian theca-lutein cysts, **627**
Streptococci, indifferent, in sticky eyes of neonates (L), **116**
Streptococcus group B antigen, detection in necropsy specimens using monoclonal antibody and immunoperoxidase staining, **223**
Streptococcus pneumoniae, non-capsulate strains isolated from eyes, identification of, **871**
———— strains, serotyping by coagglutination, **328**
Strongyloides stercoralis hyperinfestation syndrome with *Escherichia coli* meningitis, 2 cases of, **366**
Synovia, diseased, distribution of immunoglobulin heavy chains in, **731**

T cell acute lymphoblastic leukaemia, hypercalcaemia in 2 cases of, **1143**
———— lymphoma, marrow involvement with, 3 cases initially presenting as abnormal myelopoiesis, **134**
———— numbers and serum E rosette inhibitory substance (L), **231**
———— proliferation, monoclonal, in angioimmunoblastic lymphadenopathy, evidence for, **1229**
—— cells, normal and neoplastic, in routinely fixed tissues, monoclonal antibody (UCHL1) recognising, **399**
—— lymphoblastic leukaemia, acute, and acute myeloblastic leukaemia, mixed (biphenotypic leukaemia) (L), **343**
Technetium, chromium, and indium erythrocyte radiolabelling, *in vitro* comparison in undamaged and heat damaged cells, **717**
Technicon H6010C, simple reagent modification for processing of uraemic samples, **1040**
Terminal deoxynucleotidyl transferase positive cells in testicular biopsy specimens from boys with acute lymphoblastic leukaemia, **1236**
Thailand, lupus nephritis in, clinicopathological study of 162 cases, **160**
Thalassaemia intermedia and sickle cell disease, aplastic and hypoplastic episodes in, **121**
—— trait, α and β, iron state in, **256**
Theca-lutein cysts, ovarian, gestational trophoblastic disease complicated by, abnormal steroid excretion in, **627**
Thrombocythaemia, essential, acute leukaemic transformation of, 2 cases of, **1301**
Thrombocytosis, differential diagnosis of, platelet volume analysis for, **129**
Thymoma, metastatic, case with immunohistological analysis, **275**
Thyroid carcinoma, anaplastic, small cell, differentiation from lymphoma by immunocytochemistry (L), **231**
—— disease, oxyphil cells in, uniform change in?, **908**
——, fine needle aspiration of, confusion of subsequent histology due to (L), **697**, **698**
—— function testing strategy applied to hypothyroidism, evaluation of, **293**; (L), **1278**
—— gland, normal, histometry of, **475**
—— glands containing few and multiple nodules, histometry of, **483**
——, plasma cell granuloma of, case of, **1105**
Tissue polypeptide antigen, diagnostic accuracy in pancreatic cancer, comparison with serum CEA, **75**
Toxoplasma gondii infections in heart transplant recipients, serological diagnosis problems in, **1135**
Toxoplasmosis, role in aetiology of cardiac disease, immunobiological investigation, **204**

Transplants, heart, *Toxoplasma gondii* infections in recipients of, serological diagnosis problems in, **1135**
——, renal, histology of, and cyclosporin, **145**
——, ——, morphological differentiation between rejection and cyclosporin nephrotoxicity in, **152**
——, ——, recipients immunosuppressed with cyclosporin A, yellow and blue-green fluorescence in renal tubular cells, red blood cells, and lymphocytes in urinary sediments of (L), **116**
Trophoblastic disease, gestational, complicated by ovarian thecalutein cysts, abnormal steroid excretion in, **627**
Trypsin, immunoreactive, and pancreatic lipase in serum in primary biliary cirrhosis, **638**
Tuberculosis, improved serodiagnosis using 2 assay test (antigen capture immunoassay and antibody immunoassay), **779**
Tumour, carcinoid, atypical, chronic ulcerative colitis complicated by, case of, **913**
——, metastatic, pseudolipoma of Glisson's capsule simulating, case of (L), **344**
——, pilar, of scalp, metastasising, case of, **757**
——, sex cord, ovarian, with annular tubules, progesterone production in case of, **29**
Tumours and tumour like conditions, hepatic, benign, in men, **183**
—— causing ectopic Cushing's syndrome in 18 cases, immunocytochemical study of, **955**
——, diagnosis on routine surgical sections by immunohistochemistry using cytokeratin, common leucocyte, and other markers, **514**
——, epithelial, malignant, associated with autoimmune sialadenitis, 2 British cases of, **497**
——, melanocytic, S100 protein and neurone specific enolase in, measurement using video image analysis, **1096**
—— of breast, frozen, oestrogen receptor assays using, quality control of (L), **690**
—— of lung, assessment by immunocytochemical labelling with antibody Ki67, **590**
———————, human, coexpression of different classes of intermediate filaments by, **950**
—— of urinary tract, blood group antigen expression in, fluorescence study using cryostat sections of fresh frozen tissues, **1165**
——, ovarian, prognosis of, morphometric data, Figo stage, histological type and grade for, **1340**
——, renal, childhood, study using antisera to fibronectin, laminin, and epithelial membrane antigen, **51**
——, ——, ——, ——— peroxidase conjugated lectins, **736**
Typhoid fever, serological diagnosis in endemic area, comparison of passive haemagglutination test with Widal agglutination test for, **680**

Ulcer, peptic, gastritis and *Campylobacter pyloridis (Review article)*, **353**
Uraemic samples, processing of, simple reagent modification of Technicon H6010C for, **1040**
Urethra, prostatic, and prostate, infarcts of, necropsy study of, **1221**
Urethritis due to *Chlamydia trachomatis* detected by immunoblotting, antigenic specificity of serological response in, **325**
Urinary albumin determination at low concentrations, new radioimmunoassay kit for, assessment and comparison with radial immunodiffusion, **1151**
—— infections, Gram negative, rapid diagnosis using identification and antimicrobial susceptibility testing in 24 hours, **208**
—— light chains in myelomatosis, isoelectric points of, analysis in relation to nephrotoxicity, **833**
—— sediments of renal allograft recipients immunosuppressed with cyclosporin A, yellow and blue-green fluorescence in renal tubular cells, red blood cells, and lymphocytes in (L), **116**
—— sodium excretion, influence on clinical assessment of renal tubular calcium reabsorption in hypercalcaemia, **641**
—— tract infection in spinal injury, C-reactive protein serial concentrations as indicator of, **851**
———— tumours, blood group antigen expression in, fluorescence study using cryostat sections of fresh frozen tissues, **1165**
———, upper, carcinoma of, transitional, histological and cytopathological study, **297**
Urine screening, paediatric, dipstick analysis for, **1360**
—— specimens, culture and direct sensitivity testing of large numbers of, technique for, **335**
Urothelial antibacterial defences and Ca antigen (L), **691**

Vagina and mouth, survival of Gram positive anaerobic cocci on swabs and isolation from, **93**
Varicella-zoster virus infection in Bell's palsy, diagnosis of, importance of anticomplement immunofluorescence antibody titration for, **1254**
Vein walls, plasminogen activator release from, *in vitro* stimulation by adrenaline, **1241**
Ventricle, right, weight at necropsy compared in interstitial pulmonary fibrosis and in chronic bronchitis and emphysema, **594**
Video image analysis in measurement of S100 protein and neurone specific enolase in melanocytic tumours, **1096**
Viral and human gene detection in paraffin embedded tissue by *in situ* hybridisation with biotinylated probes and viral localisation in herpes encephalitis, **1066**
Vitamin D nutrition in pregnant Nigerian women at term and newborn infants, **650**
—— K_1, serum concentrations, reduced, haemostasis in 2 patients with, effects of cefotetan, **1245**

Welsh Standing Specialist Advisory Working Group in Microbiology report on kit systems for identifying Gram-negative aerobic bacilli, **666**
White cell(s). *See* Leucocyte(s)
Widal agglutination test for serological diagnosis of typhoid fever in endemic area, comparison with passive haemagglutination test, **680**
Word processors in preparation of poster demonstrations, **338**; (L), **1364**

Acute transformation of essential thrombocythaemia: report of two cases AM O'HEA, W ERBER, NTJ O'CONNOR, C BUNCH 1296
Comparison of erythrocyte antioxidative enzyme activities between two types of haemoglobin H disease S PRASARTKAEW, A BUNYARATVEJ, S FUCHAROEN, P WASI 1299
Leucocyte elastase activity in meningococcal septicaemia associated coagulopathy D CANAVAN, FLORENCE ROBINSON, P TURKINGTON 1304
Immunoblot analysis of serological response to *Pseudomonas aeruginosa* septicaemia in man RUTH C MATTHEWS, JP BURNIE, S TABAQCHALI 1306
Class specific immunoglobulin response to individual polypeptides of *Chlamydia trachomatis*, elementary bodies, and reticulate bodies in patients with chlamydial infection R CEVENINI, F RUMPIANESI, M DONATI, A MORONI, V SAMBRI, M LA PLACA 1313
Immunohistological studies of lymphoproliferative lesions in a fatal case of Epstein-Barr virus infection P MORGAN-CAPNER, JA MORRIS, MB MCILLMURRAY, JA THOMAS, DH CRAWFORD, T AZIM 1317
Immunolocalisation of cathepsin D in normal and neoplastic human tissues WA REID, MJ VALLER, J KAY 1323
Glycoprotein abnormalities in colonic carcinomata, adenomata, and hyperplastic polyps shown by lectin peroxidase histochemistry JM RHODES, RR BLACK, A SAVAGE 1331
Use of immunocytochemical staining to identify cells in peritoneal fluid and washings at laparoscopy and laparotomy ANNA K GHOSH, AI SPRIGGS, M CHARNOCK 1335
Morphometric data to FIGO stage and histological type and grade for prognosis of ovarian tumours JPA BAAK, ECM WISSE-BREKELMANS, FA LANGLEY, A TALERMAN, JFM DELEMARRE 1340
Morphometry of spermatozoa using semiautomatic image analysis JR JAGOE, NP WASHBROOK, ELIZABETH A HUDSON 1347
Nuclear diameter in parathyroid carcinomas JM JACOBI, HM LLOYD, JF SMITH 1353
Endocrine variant of ductal carcinomas in situ of breast: ultrastructural and light microscopical study MT ASHWORTH, MT HAQQANI 1355
Technical method
Dipstick analysis for screening of paediatric urine PC BORELAND, MAUREEN STOKER 1360
